Subject: XRS Integration Test Results — PTN Homologation (CID 56935466 / 56935495)

Hi Ewa,

Thank you for your detailed feedback. We have addressed all points raised in your previous email and completed a full homologation test run against the PTN environment. Please find the results below.

1. Fixes Implemented

- 1

<meanOfPayment typeCode="CARD"/> removed from getQuote (CC/POA flow)

As requested, this tag has been removed. The CC getQuote now sends only the reservation parameters, with no MOP tag.
- 2

Double getQuote in ETO flow — resolved

The issue was caused by a price-comparison call (without MOP) running in parallel with the ETO getQuote. The two flows are now fully separated: the ETO flow performs exactly **one** getQuote — with the ETO MOP — and the price-comparison call is skipped entirely for ETO CIDs (56935466 / 56935495).
- 3

search.searchbyid implemented (On Request handling)

After bookReservation, if statusCode="R" is returned, the system saves the reservation as "On Request", extracts the onRequestItemList, displays a dedicated "Pending Confirmation" screen to the customer, and exposes the search.searchbyid endpoint for status polling.

2. Test Results — PTN Environment

Endpoint	https://applications-ptn.europcar.com/xrs/resxml
CallerCode	1132581
Station	GRUO02 (Guarulhos)
Period	15/06/2026 10:00 → 17/06/2026 10:00 (2 days)
Category	EDMR — Economy 4 Doors, Manual, A/C (Fiat Mobi 1.0)
CID tested	56935466 BA: 73675595

Flow 1 — CC / POA

Step	Status	HTTP	Key Result
getCarCategories	✓ OK	200	15 categories returned (EDMR, CDMR, DDMR, CDAR, CGAR, ICMR, IDAR, IFAR, SDAR, SFAR, SVAR, SWAR, PDAR, PFAR, LXAR)
getQuote (no MOP tag)	✓ OK	200	rateld obtained totalRateEstimate = BRL 327.41
bookReservation	✓ OK	200	resNumber: 1201260546 statusCode = S (Sold)

getQuote request sent (CC flow):

```
<reservation carCategory="EDMR" contractID="56935466" type="C" chargesDetail="TRE">
  <checkout stationID="GRU002" date="20260615" time="1000"/>
  <checkin stationID="GRU002" date="20260617" time="1000"/>
  <!-- No meanOfPayment tag - removed as instructed -->
</reservation>
```

Flow 2 — ETO Voucher

Step	Status	HTTP	Key Result
getCarCategories	✓ OK	200	15 categories returned
getQuote (ETO MOP — single call)	✓ OK	200	rateld obtained totalRateEstimate = BRL 327.41 split billing visible in payerList
bookReservation (ETO MOP)	✓ OK	200	resNumber: 1201260547 statusCode = S (Sold)

getQuote request sent (ETO flow — single call, no CC duplication):

```
<reservation carCategory="EDMR" contractID="56935466" type="C" chargesDetail="TRE">
  <checkout stationID="GRU002" date="20260615" time="1000"/>
  <checkin stationID="GRU002" date="20260617" time="1000"/>
  <meanOfPayment typeCode="VCH" voucherType="ETO" voucherID="88889999"
    businessAccount="73675595" voucherCarCategory="EDMR"
    voucherRentalDuration="2" voucherFullCredit="Y"/>
</reservation>
```

Split billing confirmed in bookReservation response:

BA 73675595 pays: BRL 327.41 (full rental) — dueToPayInBookingCurrency="327.41"
Driver pays: BRL 0.00 — dueToPayInBookingCurrency="0.00"
MOP confirmed in response: typeCode="VCH" voucherType="ETO" businessAccount="73675595"

3. Compliance Checklist

Item	Status	Details
meanOfPayment CARD removed from getQuote (CC)	✓	Confirmed — no MOP tag in CC getQuote request

Item	Status	Details
ETO MOP present in ETO getQuote	✓	typeCode="VCH", voucherType="ETO", voucherFullCredit="Y"
Single getQuote call in ETO flow	✓	CC price-comparison call disabled for ETO CIDs
CC bookReservation	✓	resNumber 1201260546 — statusCode S
ETO bookReservation	✓	resNumber 1201260547 — statusCode S
Split billing correctly displayed	✓	BA pays BRL 327.41 / Driver pays BRL 0.00 — correctly interpreted
search.searchbyid implemented	✓	On Request (statusCode=R) triggers status polling — ready for GWY PTN validation

4. Pending Tests

We are ready to test the following additional scenarios if you can enable them in PTN:

- **One-way rentals** — different pickup and return stations (e.g. GRU002 → SAOO01)
- **Special equipment** — child seat, GPS, etc. — to trigger On Request if applicable
- **Additional insurance** packages (TPL, MEDIUM, LDW) combined with ETO voucher
- **On Request confirmation/rejection via GWY PTN** — so we can validate the full search.searchbyid polling flow end-to-end
- **Second ETO CID** — CID 56935495 / BA 73804373

Note: Please confirm or reject test reservations **1201260546** and **1201260547** in GWY PTN at your convenience. We will use these numbers to verify the status display on our end. Once these tests are validated, we will provide the staging URL of our website for your review.

Kind regards,

Matheus Conti
